PROFESSIONAL OBJECTIVE

My goal in software development is to apply my technical and creative skills to design innovative solutions that meet user needs and contribute to business success. I am looking for a dynamic environment where I can continue learning and growing professionally, collaborating with a talented team to create efficient applications that drive technological progress and improve the user experience.

HABILITIES

- Mastery of programming languages.
- Databases (SQL, NoSQL).
- Version control (Git).
- Communication and teamwork skills.
- Performance and scalability optimization.
- Quick learning of new technologies.

LANGUAGES

SPANISH: NATIVE

PORTUGUESE: NATIVE

ENGLISH: B1

WORK EXPERIENCE

SOFTWARE DEVELOPMENT

Fullstack developer - Software factory - CDITI Dosquebradas

13 - JULY OF 2022 | 20 - SEPTEMBER OF 2023

`Php | Laravel | Mysql | Git`

- I developed a complete information system that allowed the centralization and efficient management of information from multiple databases of a non-profit foundation. This system was designed to improve the organization, accessibility and security of data, thus facilitating decision-making and compliance with the foundation's objectives in its social work.

Fullstack Developer - Suzuki Motor of Colombia

25 - SEPTEMBER OF 2023 | 25 - MARCH OF 2024

`Javascript | PostgreSQL | Node Js | React Js | Git`

- At Suzuki, I have actively participated in full stack development, contributing from the design to the implementation of web solutions and systems. This experience has allowed me to grow professionally and contribute to the success of the company.

EDUCATION

Software Programming Technician

CDITI SENA Dosquebradas

Design and implementation of software applications for Windows, Linux and web environments, using various platforms and programming languages.

Technologist in Software Analysis and Development

CDITI SENA Dosquebradas

As a technologist, my focus is on designing and developing software applications for web environments. I use a variety of platforms and programming languages to ensure versatile and effective solutions. My goal is to create products that improve efficiency and user experience, thus contributing to the growth and success of the organization in a constantly evolving technology market.
